## THE #1 RACERS IN THE WORLD

**M**artin. Mischo. Noah. Shnate. Meatball. K-Rimes. A different champion was crowned at every race so far in 2007. Different racers from different countries using different styles. But they settle their differences out on the track. And they all agree on one thing. The winners all use Abec 11 wheels. Martin chose his fast and predictable Flywheels to take the gold at the World Championships

in Austria. Mischo chose his quick and sticky Retro BigZigs to take the gold at the World Cup in Switzerland. K-Rimes chose to tackle the harsh track conditions with his ultra-smooth Pink wheels in Canada.

The reason they choose Abec 11 or the Pink or Retro series is simple; these wheels consistently outperform

## USE THE #1 WHEELS IN THE WORLD

the competition. They are real wheels designed by real racers. Chris Chaput has raced in Austria, Switzerland, Canada, Germany, Scotland, and South Africa. He knows that there isn't such a thing as "one size fits all". That's why there are more choices under one roof than anywhere else on the planet. The competitive drive and passion for high performance is seen in every wheel.

Over 33 years of experience has gone into the testing of different urethanes, hub and wheel designs. Find out why for yourself why Abec 11 is the gold standard in wheels. Feel the speed. Feel the traction. The winners put it all out on the line and stick with Abec 11.
